Description of Partnership			
<p>The workshare portion of this agreement for AAV RAM/Rs began in July 1998 and involves a production contract competitively awarded to United Defense (UDLP), the original manufacture of the Assault Amphibious Vehicle (AAV). Under this contract UDLP is responsible for machining the AAV hull to accommodate the Bradley Fighting Vehicle Suspension System as part of the RAM/RS upgrade. UDLP is providing labor expertise and equipment to modify the hulls, and UDLP provides new, RAM/RS unique parts. The Marine Corps is disassembling, reassembling, rebuilding the transmission, electronics, generators and other components, installing a new engine, blasting and painting the AAV in the depot facility.</p> <p>Under the Facilities Utilization Agreement, which began in April 1999, the government (Marine Corps Logistics Base, Albany, GA.) provides UDLP warehouse space onboard Marine Corps Logistics Base, Albany, Ga, for use to carry out the contract for AAV RAM/RS program. The property is identified as Building 1121, Bay 4 and includes 42,000 square feet of warehouse space. The agreement permitted the conversion of underutilized warehouse space to fully utilized industrial machining space. The government provides the following services and is reimbursed actual costs by UDLP for water, electricity, sewage, natural gas, miscellaneous maintenance, entomology services, building maintenance, refuse collection, emergency ambulance services, and hazardous waste disposal. The government provides the following services at no cost to UDLP: security, safety, guard service, fire protection and intra-base mail.</p>
